Tweedy, Browne Value Funds

Report of the Board of Directors

Dear Shareholders,

We hereby present the annual report of the of the Tweedy, Browne Value Funds (the "Fund "). The report covers the period from October 1, 2024 to September 30, 2025.

Tweedy, Browne Value Funds migration from State Street International Bank GmbH, Luxembourg Branch and Lemanik Asset Management S.A. to Brown Brothers Harriman and Universal-Investment-Luxembourg S.A. took place on 24 January 2025.

Tweedy, Browne Value Funds (the "Fund") is offering investor shares of the Fund (the "Investor Shares") relating to several separate sub-funds of the Fund (each a "Sub-Fund") on the basis of the information contained in this prospectus (the "Prospectus") and in the documents referred to herein.

On September 2, 2025 sub-fund Tweedy, Browne International Value Fund (Euro) Class B was renamed Tweedy, Browne International Value Fund (Euro) Class CL EUR.

On September 2, 2025 sub-fund Tweedy, Browne International Value Fund (CHF) Class C was renamed Tweedy, Browne International Value Fund (CHF) Class CL CHF.

On September 2, 2025 sub-fund Tweedy, Browne Global High Dividend Value Fund Class D was renamed Tweedy, Browne Global High Dividend Value Fund Class CL EUR.

The key investor document ("PRIIPs KID") and/or the key investor information document ("UCITS KIID") will be made available to investors free of charge prior to their subscription for Investor Shares.

The Fund is registered pursuant to Part I of the 2010 Law and qualifies as an investment company with variable capital having designated a management company.

As at September 30, 2025 the net asset value and the performance of the share price of the sub-funds during the reporting period were as follows:

Sub-fund / Share class	ISIN	Net asset value of the share class in Currency	Performance of the share price in %
Tweedy, Browne International Value Fund (Euro) Class CL EUR (prior Tweedy, Browne International Value Fund (Euro) Class B)	LU0076398568	46,888,650.01 EUR	6.89
Tweedy, Browne International Value Fund (Euro) Class B - 1	LU0126305811	51,433,178.17 EUR	7.96
Tweedy, Browne International Value Fund (CHF) Class CL CHF (prior Tweedy, Browne International Value Fund (CHF) Class C)	LU0076398725	104,965,622.25 CHF	6.52
Tweedy, Browne International Value Fund (CHF) Class C - 1	LU0126307437	51,272,897.25 CHF	7.57
Tweedy, Browne Global High Dividend Value Fund Class CL EUR (prior Tweedy, Browne Global High Dividend Value Fund Class D)	LU0285922489	5,077,502.78 EUR	1.05
Tweedy, Browne Global High Dividend Value Fund Class D - 1	LU0285922646	1,509,056.56 EUR	1.95

All performance data provided is historical and is not indicative of future results.

* Performance returns are net of all fees and expenses. The value of the shares and the return they generate can go down as well as up. They are affected by market volatility and by fluctuations in exchange rates. The performance results reflected above for certain periods are over the course of many years and reflect multiple market cycles and varying geopolitical, market and economic conditions. Past performance is no indication of future results. Investing involves the risk of loss, including the loss of principal. The calculation of the Sub-Funds' performance complies with the "Guidelines on the Calculation and publication of Fund performance data," which were published for the Swiss Funds Association (SFA) on May 16, 2008. Index performance is shown for illustrative purposes only. You cannot invest directly in an index. Performance calculations are presented for Clean Shares (formerly "Investor Shares").

1. Prior to May 17, 2004 the Sub-Fund was denominated in USD and its investments were hedged to USD. Effective May 17, 2004, the base currency of the Sub-Fund was changed to EUR and the perceived foreign currency exposure of its investments was hedged to EUR. Since inception performance figures are based on percentage increase in USD value of shares through May 16, 2004, and percentage increase in EUR value of shares thereafter. Accordingly, since inception performance figures do not represent the percentage increase in the USD or EUR value of shares in the Sub-Fund over the period. Effective November 16, 2022, the International Value Fund (Euro) no longer hedges perceived foreign currency exposure. For comparative performance purposes, the Sub-Fund's benchmark, "MSCI EAFE/MSCI World Index," is calculated by Tweedy, Browne Company LLC ("Tweedy Browne") and represents the MSCI EAFE Index (Hedged to USD) from inception through 16 May 2004; the MSCI EAFE Index (Hedged to EUR) from May 17, 2004 through November 30, 2022; and the MSCI World Index (in EUR) for periods after November 30, 2022. The change in index composition represents the change in the Sub-Fund's base currency from USD to EUR in May 2004, and the change in the Sub-Fund's mandate from International to Global in November 2022 with a concurrent change in the Sub-Fund's hedging policy from Hedged to Unhedged.

2. The Sub-Fund's benchmark, "MSCI EAFE/MSCI World Index," is calculated by Tweedy, Browne and represents the MSCI EAFE Index (Hedged to CHF) from inception through November 30, 2022; and the MSCI World Index (Hedged to CHF) for periods after November 30, 2022. The change in index composition represents the change in the Sub-Fund's mandate from International to Global in November 2022.

3. The Sub-Fund's benchmark, "MSCI World Index," is calculated by Tweedy, Browne and represents the MSCI World Index (Hedged to EUR) from inception through November 30, 2022; and the MSCI World Index (in EUR) for periods after November 30, 2022. The change in index composition represents the change in the Sub-Fund's hedging policy in November 2022.

Tweedy, Browne Value Funds

Report of the Investment Manager (continued)

The MSCI EAFE Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets, excluding the US and Canada. The MSCI EAFE Index (in CHF) reflects the return of the MSCI EAFE Index for a Swiss franc investor; The MSCI EAFE Index (in USD) reflects the return of the MSCI EAFE Index for a US dollar investor; The MSCI EAFE Index (in EUR) reflects the return of the MSCI EAFE Index for a euro investor. The MSCI EAFE Index (Hedged to CHF) consists of the results of the MSCI EAFE Index, with its non-CHF exposure 100% hedged back into CHF; The MSCI EAFE Index (Hedged to USD) consists of the results of the MSCI EAFE Index, with its non-USD exposure 100% hedged back into USD; The MSCI EAFE Index (Hedged to EUR) consists of the results of the MSCI EAFE Index, with its non-EUR exposure 100% hedged back into EUR. Each of the three hedged Indexes account for interest rate differentials in forward currency exchange rates. Index results are inclusive of dividends and net of foreign withholding taxes.

The MSCI World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets. The MSCI World Index (in CHF) reflects the return of the MSCI World Index for a Swiss franc investor; the MSCI World Index (in EUR) reflects the return of the MSCI World Index for a euro investor. The MSCI World Index (Hedged to CHF) consists of the results of the MSCI World Index with its non-CHF exposure 100% hedged back into CHF; the MSCI World Index (Hedged to EUR) consists of the results of the MSCI World Index with its non-EUR exposure 100% hedged back into EUR. The hedged indexes account for interest rate differentials in forward currency exchange rates. Index results are inclusive of dividends and net of foreign withholding taxes.

The hedged indexes are included to illustrate how the stocks that are the components of each hedged Index would have performed in their local currencies for an investor based in Switzerland (in the case of an index hedged to CHF), the EEA (in the case of an index hedged to Euro) or the US (in the case of an index hedged to USD). The Sub-Funds are actively managed, unlike the indices, and consist of securities that vary widely from those included in the indices in terms of portfolio composition, country and sector allocations, and other metrics. The hedged indices are fully nominally hedged on a monthly basis, whereas the hedged Sub-Funds only hedge their perceived currency risk where practicable. The hedged Sub-Funds apply a different hedging methodology than the hedged indices. Effective November 16, 2022, the International Value Fund (Euro) and Global High Dividend Yield Fund generally no longer hedge their perceived foreign currency exposure. Results for each index are inclusive of dividends and net of foreign withholding taxes. Index results are shown for illustrative purposes only, and do not reflect any deduction for fees and expenses. You cannot invest directly in an index.

Market Overview

The past year has been another extraordinarily buoyant period for equity markets worldwide, particularly in the US. Equity valuations achieved new record highs as measured by the performance and the price-to-earnings ratio of the S&P 500 Index (the "S&P 500"). By the end of the fiscal year ending September 30, 2025, the S&P 500 had risen by 17.60% in USD. Popular valuation metrics, such as the "Buffett Indicator" and the CAPE-Shiller P/E Ratio, as described herein were also at or near record highs as of the fiscal year end. This optimism has come on the heels of remarkable gains for the S&P 500, which saw back-to-back calendar year returns of 26% in 2023 and 25% in 2024. However, when measuring returns in euros or Swiss francs, the gains of the S&P 500 were more muted, as both European currencies appreciated significantly against the US dollar during the fiscal year.

Non-US equities also performed extraordinarily well over the last fiscal year ended September 30 as evidenced by the MSCI World Index's and the MSCI EAFE Index's local currency returns of 16.79% and 12.92%, respectively. In our view, non-US equity valuations, while also somewhat elevated, remain attractive and continue to trade at a significant discount to US equity valuations.

In this continued "risk on" environment, the two Tweedy Browne International Value sub-funds delivered meaningful absolute returns over the last fiscal year ended September 30 but failed to beat each of their primary benchmarks. The Global High Dividend Value Fund struggled on a relative basis, trailing its benchmark by a more considerable margin. In contrast, over the somewhat shorter calendar year-to-date measurement period ending September 30, the International Value Fund (Euro) and the Global High Dividend Value Fund outperformed their benchmarks by 479 and 112 basis points, respectively. During this same period, the International Value Fund (CHF) produced the best absolute return of our three Sub-Funds, up 9.59%, but underperformed its primary benchmark by 179 basis points.

What Impacted Performance During the Period

While the Sub-Funds' performance reflected several areas of strength — most notably within the industrial, financial, and health care sectors — there were also periods of challenge throughout the year. While industrial, financial, and health care holdings were the primary contributors to returns, certain individual positions underperformed, and broader market dynamics, including currency fluctuations, occasionally weighed on results. In particular, the appreciation of the euro and the Swiss franc had a negative impact on currency translations, especially for the euro-denominated share classes.

The most significant positive contribution came from the Sub-Funds' industrial holdings, particularly in the aerospace and defense, machinery, and building products segments — established businesses with durable competitive positions that were acquired at attractive valuations. Financials also performed well, as banks and insurers in Europe and Asia demonstrated resilient balance sheets and improving profitability. Health care holdings, including pharmaceuticals, biotechnology, and service providers, further enhanced returns. In addition, select Communication Services and Consumer Discretionary positions, notably in interactive media, retail, and automobile components, contributed positively.

Tweedy, Browne Value Funds

Report of the Investment Manager (continued)

Conversely, Consumer Staples detracted from the Sub-Funds' performance, with beverage and food companies lagging. Materials holdings, including chemicals and related inputs, also weighed on results, while the Sub-Funds' limited exposure to energy modestly detracted. From a regional perspective, Germany, Japan, France, and parts of Asia excluding Japan were sources of strength, whereas positions in the Netherlands, Finland, and China underperformed. Smaller-cap companies produced mixed results, with some early-period weakness, while larger holdings contributed more consistently.

Currency movements introduced an additional layer of complexity. For the euro-denominated Sub-Funds, the euro's appreciation against the US dollar, British pound, and Japanese yen reduced reported returns. By contrast, the Swiss franc International Value Fund, which is currency-hedged, was largely insulated from these effects, preserving local equity gains even as the franc appreciated.

Overall, the Sub-Funds benefited from continued exposure to high-quality, competitively advantaged businesses in the industrial and financial sectors. However, these tailwinds were partially offset by challenges in consumer staples, materials, and from adverse currency movements.

Top Equity Performance Contributors and Detractors

International Value Fund (EUR)

Top Contributors: Rheinmetall, BAE Systems, Safran, Alphabet, Ionis Pharmaceuticals, Prudential, Tarkett, Sol SpA, DBS Group, Fresenius SE

Top Detractors: FMC Corp, Diageo, Teleperformance, Kemira, TotalEnergies, Nestlé, SThree, Grafton Group, Haitian International, Inchcape

Portfolio Activity During the Period

The Sub-Funds remained active during the year, adding to positions that we believed continued to represent attractive value and where we saw long-term promise, and we trimmed a number of positions where valuations had accreted to our estimates of fair value. We initiated new positions in smaller and mid-sized companies such as ADEKA, Fuji Seal, Hana Financial, Nifco, Pets at Home, and Takara Holdings, firms that at purchase, in our opinion, were trading at discounts to their underlying intrinsic values, were financially strong, and had runways of future growth ahead of them.

We also added to existing stakes in businesses like Computacenter, CVS Group, Ionis Pharmaceuticals, and Subaru, where we believe the market still underestimates their long-term potential. On the other side of the ledger, we trimmed or exited positions in companies such as Alphabet, Brenntag, FMC Corp, Porsche, Teleperformance, and Trelleborg, locking in gains in some instances and losses in others while recycling capital into better bargains. In the Global High Dividend Value Fund, we took a bit off the table in fully valued higher-yielding names such as BAE Systems, DBS Group, and Bank of America.

As ever, our trading activity was informed by discrepancies between price and value -- buying and adding to positions when discounts were material and correspondingly selling and trimming positions where the discount to intrinsic value had narrowed.

Tweedy, Browne Value Funds

Report of the Investment Manager (continued)

Portfolio Positioning

The Tweedy, Browne Value Funds remain, in our view, well positioned in the parts of the global equity market that represent real value, particularly non-US equities. We continue to uncover opportunity in stocks outside the United States, particularly in smaller and medium-sized European, Asian, and Japanese equities. Over the last several years, we have added a plethora of small and medium-capitalization companies to all three of our Sub-Funds.

Important Announcement

We are pleased to share the following significant developments for our UCITS fund investors:

Daily redemption: As of September 2, 2025, the Tweedy, Browne Value Funds have transitioned from a twice-monthly dealing schedule to daily liquidity. This change means that our investors may now subscribe to, redeem, or convert shares on any business day, providing increased flexibility and responsiveness when managing their investment. Our investment process and stewardship remain unchanged.

New share classes: We have also expanded the share class offerings in our two International Sub-Funds. The new share class structure includes a "clean" share class (CL), a retail share class that allows for the payment of retrocessions (R), an institutional share class (I), a "super" institutional share class (IX), and in the case of the International (EUR) Fund an institutional and super institutional share class denominated in US dollars (I USD, IX USD). The Global High Dividend Value Fund (EUR) maintains a "clean" share class (CL). All investors who were invested in our Sub-Funds prior to the adoption of the new share classes now own shares in the new "clean" (CL) share class, which is charged a contractual fee of 1.00%, or 25 basis points lower than our previous contractual fee of 1.25%. With the adoption of the new share classes, the Sub-Funds' prior 25 basis point waiver off the annual 1.25% contractual fee is no longer in effect.

These enhancements reflect a natural evolution of our fund platform, and our ongoing commitment to meet the needs of shareholders while maintaining the pricing discipline and long-term orientation that has historically characterized our investment approach. Should you have any questions about these changes or how it may affect your investment, please contact Annmarie Maguire (amaguire@tweedy.com).

Outlook

We are encouraged by the resurgence of non-US equity returns and believe our Sub-Funds are well-positioned for whatever may lie ahead. If there is indeed the beginning of a sea change favoring non-US equities in our equity markets, we believe our Sub-Funds will likely continue to participate. Conversely, if global equity markets face a long-overdue comeuppance, we believe our Sub-Funds will likely hold up relatively better than broad capitalization-weighted indices.

While our international value Sub-Funds have not necessarily outperformed their respective benchmark indexes in every calendar year, they have achieved the most significant gains relative to their benchmarks during challenging investment environments. In fact, over the past 30 calendar years (ending September 30, 2025) there have been seven instances when our Sub-Funds' benchmark indexes recorded negative returns for the year. In each of these seven years, our two international Sub-Funds outperformed their benchmark, sometimes by significant margins. While there are no guarantees, we are hopeful that during a global equity market downturn, this trend will continue.

As noted in our semi-annual report, we believe that a diversified portfolio of well-capitalized, competitively advantaged companies, purchased at sensible valuations, provides the best defense against market uncertainty and resultant volatility. If the past is prologue, this approach should continue to benefit us and our investors over time.

Tweedy, Browne Value Funds

Report of the Investment Manager (continued)

Mention of a specific security should not be considered a recommendation to buy or a solicitation to sell that security. Portfolio holdings are subject to change at any time without notice and may not be representative of a Sub-Fund's current or future investments.

S&P 500 Index is an unmanaged, capitalization-weighted index composed of 500 widely held common stocks and assumes the reinvestment of dividends. The index is generally considered representative of US large capitalization stocks.

Buffett Indicator is a measure that compares the total value of the stock market to the size of the economy (GDP). It's used to gauge whether the market as a whole may be overvalued or undervalued.

CAPE-Shiller P/E is short for "Cyclically Adjusted Price-to-Earnings" ratio, it compares stock prices to average inflation-adjusted earnings over the past 10 years. It's used to gauge whether the market is overvalued or undervalued based on long-term earnings trends.

The views expressed represent the opinions of Tweedy, Browne Company LLC as of the date of this letter, are not intended as a forecast or a guarantee of future results, or investment advice and are subject to change without notice.

Current and future portfolio holdings are subject to risk. Investing in foreign securities involves additional risks beyond the risks of investing in US securities markets. These risks, which are more pronounced in emerging markets, include currency fluctuations; political uncertainty; different accounting and financial standards; different regulatory environments; and different market and economic factors in various countries. In addition, the securities of small, less well-known companies may be more volatile than those of larger companies. Force majeure events such as pandemics, political upheaval and natural disasters are likely to increase the risks inherent in investments and could have a broad negative impact on the world economy and business activity in general. Value investing involves the risk that the market will not recognize a security's intrinsic value for a long time, or that a security thought to be undervalued may actually be appropriately priced when purchased. Dividends are not guaranteed, and a company currently paying dividends may cease paying dividends at any time. Diversification does not guarantee a profit and does not protect against a loss in a declining market.

The performance results reflected herein are over the course of many years and reflect multiple market cycles and varying geopolitical, market and economic conditions. **Past performance is no guarantee of future results.**

Please refer to the Sub-Funds' prospectus for a description of risk factors associated with investments in securities, which may be held by the Sub-Funds. All investments are subject to risk including the possible loss of principal. There is no assurance that a Sub-Fund will achieve its investment objective.

Although the practice of hedging perceived foreign currency exposure, where practicable, utilized by the Tweedy, Browne International Value Fund (CHF) reduces the risk of loss from exchange rate movements, it also reduces the ability of the Sub-Fund to gain from favorable exchange rate movements when the currency to which the Sub-Fund is being hedged declines against the currencies in which the Sub-Fund's investments are denominated and may impose costs on a Sub-Fund. As a result of practical considerations, fluctuations in a security's prices, and fluctuations in currencies, a Sub-Fund's hedges are expected to approximate, but will generally not equal, the Sub-Fund's perceived foreign currency risk.

Stocks and bonds are subject to different risks. In general, stocks are subject to greater price fluctuations and volatility than bonds and can decline significantly in value in response to adverse issuer, political, regulatory, market or economic developments. Unlike stocks, if held to maturity, bonds generally offer to pay both a fixed rate of return and a fixed principal value. Bonds are subject to interest rate risk (as interest rates rise bond prices generally fall), the risk of issuer default, issuer credit risk, and inflation risk, although US Treasuries are backed by the full faith and credit of the US Government.

DEFINITIONS

Price/Earnings (or P/E) ratio is a comparison of the company's closing stock price and its trailing 12-month earnings per share.

The Buffett Indicator, also known as the Market Capitalization-to-GDP ratio, is a valuation metric that assesses the price of the stock market relative to a country's GDP. It's calculated by dividing the total market value of a country's publicly-traded stocks by its GDP.

The Shiller CAPE Index, also known as the cyclically adjusted price-to-earnings ratio, is a stock valuation metric that compares a stock's current price to its average inflation-adjusted earnings over the previous 10 years. The CAPE index is used to assess whether a stock or market is overvalued or undervalued, and to forecast future returns.

This letter contains opinions and statements on investment techniques, economics, market conditions and other matters. There is no guarantee that these opinions and statements will prove to be correct, and some of them are inherently speculative. None of them should be relied upon as statements of fact.

Tweedy, Browne Value Funds

Notes to the Financial Statements

General

Tweedy, Browne Value Funds (the "Fund") is an investment company organized under the laws of the Grand Duchy of Luxembourg as a Société d'Investissement à Capital Variable with the capacity to divide its assets into several separate Sub-Funds and issue shares of several classes (each, a "Class"), each relating to a separate Sub-Fund.

The Fund is registered pursuant to Part I of the law of December 17, 2010 on undertakings for collective investment, as amended, and is an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the Directive 2009/65/EC of the European Parliament and of the Council.

The Fund, the International Euro Sub-Fund and the Swiss Franc Sub-Fund were organized on October 30, 1996 and commenced operations on November 1, 1996. The High Dividend Sub-Fund was organized on June 1, 2007 and commenced operations on June 15, 2007.

Tweedy, Browne International Value Fund (Euro) – invests primarily in equity securities of issuers domiciled throughout the world that are admitted to or dealt in on a Regulated Market or Other Regulated Market. The Sub-Fund is denominated in Euros.

Tweedy, Browne International Value Fund (CHF) – invests primarily in equity securities of issuers domiciled throughout the world that are admitted to or dealt in on a Regulated Market or Other Regulated Market. The Sub-Fund is denominated in Swiss francs.

Tweedy, Browne Global High Dividend Value Fund – invests primarily in equity securities of issuers domiciled throughout the world that are admitted to or dealt in on a Regulated Market or Other Regulated Market that the Investment Manager believes to have above-average dividend yields and valuations that are reasonable. The Sub-Fund also invests, on a more limited basis, in securities the Investment Manager believes to have attractive shareholder yields at the time of purchase, along with valuations that are reasonable. The Sub-Fund is denominated in Euros.

Each Sub-Fund is actively managed without reference to any benchmark.

The fiscal year of each Sub-Fund ends on September 30.

Significant accounting policies

The financial statements were prepared in accordance with the legal provisions and regulations in force in Luxembourg concerning the preparation and presentation of the financial statements and under the going - concern assumption.

The Net Asset Value per Share of each Class is determined as of each Valuation Date and is calculated on the Business Day following the Valuation Date based upon the market value of all of the portfolio securities of the corresponding Sub-Fund and any other assets of the Sub-Fund less all liabilities.

Each Sub-Fund has two separate classes: the Manager Share Class relating to the Sub-Fund (i.e., Class B-1 for the International Sub-Fund (Euro), Class C-1 for the International Sub-Fund (CHF), Class D-1 for the High Dividend Sub-Fund) and the Investor Share Class relating to the Sub-Fund (Class CL).

A summary of the valuation policies adopted by the Board of Directors is set forth below:

- a. The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- b. The value of Transferable Securities and Market Instruments and any other assets listed or dealt in on any stock exchanges or on a Regulated Market and/or any Other Regulated Market is based on the last available closing price on the relevant market which is normally the principal market for such assets;
- c. In the event that any assets are not listed or dealt in on any stock exchange or on any Regulated Market and/or any Other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange or on any Regulated Market and/or Other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraph (b) above is determined not to be representative of the fair market value of the relevant assets, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith;
- d. The liquidating value of futures, forward or options contracts not traded on a stock exchange or on Regulated Markets, or on Other Regulated Markets will mean their net liquidating value determined, pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts. The value of futures, forward or options contracts traded on a stock exchange or on Regulated Markets, or on Other Regulated Markets will be based upon the last available settlement or closing prices as applicable to these contracts on a stock exchange or on Regulated Markets, or on Other Regulated Markets on which the particular futures, forward or options contracts are traded on behalf of the Fund; provided that if a future, forward or options contract could not be liquidated on the day with respect to which assets are being determined, the basis for determining the liquidating value of such contract will be such value as the Board of Directors may deem fair and reasonable;

Tweedy, Browne Value Funds

Notes to the Financial Statements (continued)

Significant accounting policies (continued)

- e. Swaps will be valued at fair value as determined in good faith pursuant to procedures established by the Board of Directors;
- f. Units or shares of open-ended UCIs will be valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price will be determined by the Board of Directors on a fair and equitable basis. Units or shares of a closed-ended UCI will be valued at their last available stock market value.
- g. All other Transferable Securities, Money Market Instruments and other financial liquid assets, including equity and debt securities, are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors. Such valuation may also apply to securities and other assets for which current market quotations are not readily available, and those securities which are not readily marketable due to significant legal and contractual restrictions and to any other assets of any Sub-Fund if an event has occurred subsequent to the time a value was established which is likely to materially affect such value.

The value of all assets and liabilities not expressed in the Base Currency of a Sub-Fund is converted into the Base Currency of such Sub-Fund at rates last quoted by any major bank or by Thomson Reuters. In the event that exchange rates are not available for a particular currency on a Valuation Date, the last quoted exchange rate is used.

Foreign exchange conversion

Tweedy, Browne Value Funds

Notes to the Financial Statements (continued)

Investment Management and Management Company Fees (until January 23, 2025)

The Fund has agreed to pay the Investment Manager, quarterly in arrears, an investment management fee at an annual rate of 1.25% of the average aggregate Net Asset Value of the Investor Shares of each Sub-Fund of the Fund computed as of the close of business on the applicable valuation date. The investment management fee payable to the Investment Manager is borne by the Investor Shares of each Sub-Fund and accrued fees are deducted in determining the Net Asset Value of Investor Shares.

The Fund pays to the Management Company a management company services fee that will not exceed 0.10% of the average assets per Sub-Fund per annum subject to a minimum of EUR 80,000, such minimum to be charged at the level of the Fund.

Effective since May 1, 2020, the Investment Manager and the Fund entered into an Amended and Restated Voluntary Investment Management Fee Waiver Agreement (the "Agreement"). The Agreement will continue in effect through at least December 31, 2025, but may be continued from year to year thereafter by the Investment Manager.

Under the Agreement, the investment management fee payable by the Fund is as follows:

One percent (1.00%) per annum in respect of the average aggregate Net Asset Value of the Investor Shares of each of the International Euro Sub-Fund, and the Swiss Franc Sub-Fund, and ninety basis points (0.90%) per annum in respect of the average aggregate Net Asset Value of the Investor Shares of the High Dividend Sub-Fund.

The Annual Investment Management Fee Rate so calculated will be applied to the average aggregate Net Asset Value of each Sub-Fund's Investor Shares as of the relevant Valuation Date.

No investment management fee is charged on or borne by the Manager Shares of any Sub-Fund.

In addition, the Fund has entered into agreements to pay service fees to certain investment fund platforms through which Investor Shares are offered. The Fund also pays the Management Company annual fees for distribution, registration, and other ancillary services.

Management Company Fees (since January 24, 2025)

The Fund pays to the Management Company a management company services fee that will not exceed 0.125% of the average net assets per Sub-Fund per annum subject to a minimum of EUR 105,000 such minimum to be charged at the level of the Fund with three Sub-Funds, including up to two share classes.

The Fund also pays the Management Company annual fees for distribution, registration, and other ancillary services.

Management Company fee	85,786.66 EUR	139,934.32 CHF	12,921.72 EUR

Tweedy, Browne Value Funds

Notes to the Financial Statements (continued)

Investment Manager fee (since January 24, 2025)

Each Sub-Fund pays to the Investment Manager, quarterly in arrears, an investment management fee at an annual rate of 1.00% of the average aggregate Net Asset Value of the Investor Shares of such Sub-Fund, computed as of the close of business on the applicable Valuation Date (see "Net Asset Value").

	Tweedy, Browne International Value Fund (Euro)	Tweedy, Browne International Value Fund (CHF)	Tweedy, Browne Global High Dividend Value Fund
Investment Manager fee	490,527 EUR	1,256,946.83 CHF	63,528.50 EUR

Domiciliary and corporate agent services fees (since January 24, 2025)

The Fund pays a fixed fee of EUR € 15,000 p.a. for the services for Domiciliary and Corporate Agent Services in accordance with normal banking practices in Luxembourg. In addition, the Fund pays out of the assets of the relevant Sub-Fund all reasonable out-of-pocket expenses, disbursements and for the charges.

	Tweedy, Browne International Value Fund (Euro)	Tweedy, Browne International Value Fund (CHF)	Tweedy, Browne Global High Dividend Value Fund
Domiciliary fees *)	1,143.53 EUR	1,068.12 CHF	1,143.53 EUR
Corporate agent services fees *)	2,306.48 EUR	2,136.22 CHF	2,287.03 EUR

*) Domiciliary and corporate agent services fees are included in a Statement of Operations in "Other expenses".

Depositary fees (since January 24, 2025)

The Fund pays to the Depositary by way of remuneration a fee, which varies from 0.005% of net assets to 0.9% of net assets, depending on the countries in which the Sub-Funds invest, payable monthly in arrears, plus transaction fees, subject to a minimum of EUR 15,000.00 p.a. The Fund also pays the Depositary a depositary oversight service fee of 0.01% of net assets annually, subject to minimum of EUR 6,600.00 p.a.

Tweedy, Browne Global High Dividend Value Fund Class CL EUR (prior Tweedy, Browne Global High Dividend Value Fund Class D)	2.38	2.38
Tweedy, Browne Global High Dividend Value Fund Class D - 1	1.28	1.28

*) In the event of a short or extended financial year, the Ongoing Charges will be annualised.

Tweedy, Browne Value Funds

Notes to the Financial Statements (continued)

Portfolio Turnover Ratio/PTR (unaudited)

The PTR was calculated using the following formula:

Turnover =
$$\frac{\text{Total 1} - \text{Total 2}}{\text{M}} \times 100$$

Total 1 = Total purchases + Total sales of securities

Total 2 = Total subscription + Total redemption

M = Average Assets (daily)

The Portfolio Turnover Rate (PTR) for the period from October 1, 2024 until September 30, 2025 was:

Fund	PTR in %
Tweedy, Browne International Value Fund (Euro)	22.74
Tweedy, Browne International Value Fund (CHF)	36.08
Tweedy, Browne Global High Dividend Value Fund	15.85

 - Brown Brothers Harriman (Luxembourg) S.C.A. is the Registrar and Transfer Agent, Paying Agent and Depositary

Subsequent events

There were no subsequent events material to Fund's financial statements.

Independent auditor's report

To the Shareholders of
Tweedy, Browne Value Funds
15, rue de Flaxweiler
L-6776 Grevenmacher
Luxembourg

Opinion

We have audited the financial statements of Tweedy, Browne Value Funds (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and derivatives as at September 30, 2025, and the statement of operations and the statement of changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at September 30, 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (the "Law of July 23, 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standard Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

**Shape the future
with confidence**

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

Shape the future
with confidence

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The following table shows the fixed and variable remuneration in 2023 for the Identified Staff (22 persons), who is fully or partly involved in the activities of all the funds managed by the Management Company. For the purposes of the below disclosures, where portfolio management activities have been formally delegated to another entity, the remuneration of the relevant identified staff of the delegate has been excluded, as it is not paid out by the Management Company or by the Fund.

Staff Code	Fixed remuneration	Variable Remuneration	Total
S	1,799,867.83	290,000.00	2,089,867.83
R	904,422.38	66,000.00	970,422.38
C	326,569.92	28,500.00	355,069.92
O	0.00	0.00	0.00

- S = Senior Management
R = Risk takers, w hich includes staff members w hose professional activities can exert material influence on UCITS or AIFs managed by Lemanik Asset Management S.A. ("LAM").
C = Staff engaged in control functions (other than senior management) responsible for risk management, compliance, internal audit and similar functions.
O = Any other staff member receiving total remuneration that takes them into the same remuneration bracket as senior management and risk-takers, w hose professional activities have a material impact on LAMs risk profile.

Remuneration Policy of the Management Company since January 24, 2025 (unaudited)

The fees of the employees are specified as follows (as of September 30, 2025):

Total of paid remuneration	18.59 Mio. EUR
- thereof fixed fee	16.67 Mio. EUR
- thereof variable fee	1.92 Mio. EUR
Number of employees	156 Vollzeitäquivalent
Amount of paid carried Interest	n/a
Total of paid fee to Risktaker	3.45 Mio. EUR
- thereof fixed fee	2.88 Mio. EUR
- thereof variable fee	0.57 Mio. EUR

The remuneration policy is compliant with the requirements of the Management Company.
Details with regard to the remuneration system of the Management Company are available on the website of Universal-Investment-Gesellschaft mbH (<https://www.universal-investment.com/de/Unternehmen/Compliance/> Luxembourg) and in the Prospectus.
There were no changes in the remuneration system during the reporting period compared to the prior period.
The Compensation Committee reviews compliance with the remuneration policy once a year. This includes the orientation towards the business strategy, objectives, values and interests of Universal-Investment-Luxembourg S.A. and the funds it manages, as well as measures to avoid conflicts of interest. There were no findings which would have required an adjustment.
