Report of the Board of Directors

Dear Shareholders,

We hereby present the semi-annual report of the of the Tweedy, Browne Value Funds (the "Fund "). The report covers the period from October 1, 2024 to March 31, 2025.

Tweedy, Browne Value Funds migration from State Street International Bank GmbH, Luxembourg Branch and Lemanik Asset Management S.A. to Brown Brothers Harriman and Universal-Investment-Luxembourg S.A. took place on 24 January 2025.

Tweedy, Browne Value Funds (the "Fund") is offering investor shares of the Fund (the "Investor Shares") relating to several separate sub-funds of the Fund (each a "Sub-Fund") on the basis of the information contained in this prospectus (the "Prospectus") and in the documents referred to herein.

The key investor document ("PRIIPs KID") and/or the key investor information document ("UCITS KIID") will be made available to investors free of charge prior to their subscription for Investor Shares.

The Fund is registered pursuant to Part I of the 2010 Law and qualifies as an investment company with variable capital having designated a management company.

As at March 31, 2025 the net asset value and the performance of the share price of the sub-funds during the reporting period were as follows:

Sub-fund / Share class	ISIN	Net asset value of the share class in Currency	Performance of the share price in %

* Performance returns are net of all fees and expenses. The value of the shares and the return they generate can go down as well as up. They are affected by market volatility and by fluctuations in exchange rates. The performance results reflected above are over the course of many years and reflect multiple market cycles and varying geopolitical, market and economic conditions. Past performance is no indication of future results. Investing involves the risk of loss, including the loss of principal. The calculation of the Sub-Funds' performance complies with the "Guidelines on the Calculation and publication of Fund performance data," which were published for the Swiss Funds Association (SFA) on May 16, 2008. Index performance is shown for illustrative purposes only. You cannot invest directly in an index. Performance calculations are presented for Investor Shares.

1. Prior to May 17, 2004 the Sub-Fund was denominated in USD and its investments were hedged to USD. Effective May 17, 2004, the base currency of the Sub-Fund was changed to EUR and the perceived foreign currency exposure of its investments was hedged to EUR. Since inception performance figures are based on percentage increase in USD value of shares through May 16, 2004, and percentage increase in EUR value of shares thereafter. Accordingly, since inception performance figures do not represent the percentage increase in the USD or EUR value of shares in the Sub-Fund over the period. Effective November 16, 2022, the International Value Fund (Euro) no longer hedges perceived foreign currency exposure. For comparative performance purposes, the Sub-Fund's primary benchmark ("Int'l Value Fund (EUR) Primary Custom Benchmark") is an index created and calculated by Tweedy, Browne and represents the MSCI EAFE Index (Hedged to USD) from inception through May 16, 2004; the MSCI EAFE Index (Hedged to EUR) from May 17, 2004 through November 30, 2022; and the MSCI World Index (in EUR) for periods after November 30, 2022. The change in index composition represents the change in the Sub-Fund's base currency from USD to EUR in May 2004, and the change in the Sub-Fund's mandate from International to Global in November 2022 with a concurrent change in the Sub-Fund's hedging policy from Hedged to Unhedged.

2. The Sub-Fund's primary benchmark ("Int'l Value Fund (CHF) Primary Custom Benchmark") is an index created and calculated by Tweedy, Browne and represents the MSCI EAFE Index (Hedged to CHF) from inception through November 30, 2022; and the MSCI World Index (Hedged to CHF) for periods after November 30, 2022. The change in index composition represents the change in the Sub-Fund's mandate from International to Global in November 2022.

3. The Sub-Fund's primary benchmark ("Global High Div Fund (EUR) Primary Custom Benchmark") is an index created and calculated by Tweedy, Browne and represents the MSCI World Index (Hedged to EUR) from inception through November 30, 2022; and the MSCI World Index (in EUR) for periods after November 30, 2022. The change in index composition represents the change in the Sub-Fund's hedging policy in November 2022.

Tweedy, Browne Value Funds

Report of the Investment Manager (continued)

The MSCI EAFE Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets, excluding the U.S. and Canada. The MSCI EAFE Index (in CHF) reflects the return of the MSCI EAFE Index for a Swiss franc investor; The MSCI EAFE Index (in USD) reflects the return of the MSCI EAFE Index for a US dollar investor; The MSCI EAFE Index (in EUR) reflects the return of the MSCI EAFE Index for a euro investor. The MSCI EAFE Index (Hedged to CHF) consists of the results of the MSCI EAFE Index, with its non-CHF exposure 100% hedged back into CHF; The MSCI EAFE Index (Hedged to USD) consists of the results of the MSCI EAFE Index, with its non-USD exposure 100% hedged back into USD; The MSCI EAFE Index (Hedged to EUR) consists of the results of the MSCI EAFE Index, with its non-EUR exposure 100% hedged back into EUR. Each of the three hedged Indexes account for interest rate differentials in forward currency exchange rates. Index results are inclusive of dividends and net of foreign withholding taxes.

The MSCI World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets. The MSCI World Index (in CHF) reflects the return of the MSCI World Index for a Swiss franc investor; the MSCI World Index (in EUR) reflects the return of the MSCI World Index for a euro investor. The MSCI World Index (Hedged to CHF) consists of the results of the MSCI World Index with its non-CHF exposure 100% hedged back into CHF; the MSCI World Index (Hedged to EUR) consists of the results of the MSCI World Index with its non-EUR exposure 100% hedged back into EUR. The hedged indexes account for interest rate differentials in forward currency exchange rates. Index results are inclusive of dividends and net of foreign withholding taxes.

The hedged indexes are included to illustrate how the stocks that are the components of each hedged Index would have performed in their local currencies for an investor based in Switzerland (in the case of an index hedged to CHF), the EEA (in the case of an index hedged to Euro) or the US (in the case of an index hedged to USD). The Sub-Funds are actively managed, unlike the indices, and consist of securities that vary widely from those included in the indices in terms of portfolio composition, country and sector allocations, and other metrics. The hedged indices are fully nominally hedged on a monthly basis, whereas the hedged Sub-Funds only hedge their perceived currency risk where practicable. The hedged Sub-Funds apply a different hedging methodology than the hedged indices. Effective November 16, 2022, the International Value Fund (Euro) and Global High Dividend Yield Fund generally no longer hedge their perceived foreign currency exposure. Results for each index are inclusive of dividends and net of foreign withholding taxes. Index results are shown for illustrative purposes only, and do not reflect any deduction for fees and expenses. You cannot invest directly in an index.

INTERNATIONAL VALUE FUND (CHF)

5-Year Rolling Average Annual Returns (calculated monthly)

October 31, 1996 through March 31, 2025

Out of 282 five-year measurement periods, the International Value Fund (CHF) has outperformed the Sub-Fund's Primary Custom Benchmark* 153 times, or 54% of measured periods.

AVERAGE OF RETURNS PLOTTED ABOVE

	Sub-Fund	Index
Down Market (Index below 0%) - 87 Periods <i>Sub-Fund beats Index in 97% of periods</i>	2.45%	-3.80%
Normal Market (Index 0-10%) - 163 Periods <i>Sub-Fund beats Index in 32% of periods</i>	5.39%	5.65%
Robust Market (Index above 10%) - 32 Periods <i>Sub-Fund beats Index in 53% of periods</i>	11.29%	11.93%

The above chart illustrates the five-year average annual rolling net returns (calculated) for the International Value Fund (CHF) (the 'Sub-Fund') since October 31, 1996, compared to the five-year average annual rolling returns for its benchmark, the Int'l Value Fund (CHF) Primary Custom Benchmark* (the 'Index'). The horizontal axis represents the returns for the Index, while the vertical axis represents the returns for the Sub-Fund. The diagonal axis is a line of demarcation separating periods of outperformance from periods of underperformance. Plot points above the diagonal axis are indicative of the Sub-Fund's relative outperformance, while points below the diagonal axis are indicative of the Sub-Fund's relative underperformance. Returns were plotted for three distinct equity market environments: a 'down market' (Index return was less than 0%); a 'normal market' (Index return was between 0% and 10%); and a 'robust market' (Index return was greater than 10%). There were 282 five-year average annual rolling return periods between October 31, 1996 and March 31, 2025. Past performance is no guarantee of future returns. The performance data does not take account of any commissions and costs incurred on the issue and redemption of shares.

Please refer to important performance disclosures and index descriptions included on the previous page.

Report of the Investment Manager (continued)

Executive Summary

- Global equity markets advanced during the six months ending March 31, 2025, driven in part by better news on the inflation front and improving earnings expectations.
- The first quarter of 2025 saw a shift in sentiment, with rising volatility centered around concerns about competitive developments in artificial intelligence and the proposed imposition of tariffs, and their potential impact on prices and economic growth.
- The two Tweedy, Browne International Value Sub-Funds achieved modestly positive absolute returns, and bested their benchmark indices for the period supported by strong contributions from their industrial, financial, and healthcare holdings. The Tweedy, Browne Global High Dividend Fund produced a modestly negative return for the semi-annual reporting period and trailed its benchmark index.
- The Sub-Funds, in our view, remain extraordinarily well positioned in the parts of the global equity market that represent real value, more specifically non-U.S. equities where we continue to uncover considerable opportunity in small and medium capitalization companies in Europe, Asia ex-Japan, and Japan.

Market Overview

Global equity markets continued their advance over much of the six-month period ending March 31, 2025, supported by easing inflationary pressures, gradual monetary policy adjustments, and improving corporate earnings expectations. Investor sentiment remained especially strong in the United States, driven by enthusiasm for developments in artificial intelligence. European markets, which in our view, on the whole, trade at significant discounts to their U.S. counterparts, also responded positively to moderating inflation data, while Asia presented a mixed picture - with Japan benefiting from corporate governance reforms and China facing ongoing economic headwinds.

However, conditions shifted notably during the first quarter of 2025. The emergence of DeepSeek's new AI model raised concerns about the sustainability of U.S. technology leadership, and proposed new tariff measures from the U.S. administration introduced uncertainty regarding global trade and inflation. As a result, market volatility increased, and non-U.S. equities, particularly in Europe and parts of Asia, outperformed U.S. markets toward the end of the period.

What Impacted Performance During the Period

Over the six months, the two Tweedy, Browne International Value Sub-Funds achieved modestly positive absolute returns, and bested their respective benchmarks, although results varied across the individual sub-funds. The Tweedy, Browne Global High Dividend Fund in contrast produced a modestly negative return and trailed its benchmark. Strong contributions to returns came from the industrial, financial, and healthcare sectors, particularly within industry groups such as aerospace and defense, pharmaceuticals, and food products. In contrast, materials, consumer discretionary, and communication services sectors detracted from performance, led by weakness in chemicals, interactive media, and biotechnology holdings.

Geographically, positive stock selection in Switzerland, France, and Germany supported returns, while exposure to Japan and the United States detracted. The Sub-Funds' emphasis of late on smaller and mid-sized companies, although offering compelling long-term value, faced some short-term headwinds earlier in the period.

Portfolio Activity During the Period

During the period, the Sub-Funds remained active, identifying new investment opportunities where valuations appeared favorable. New positions in one or more Sub-Funds were initiated in companies such as ADEKA, Arkema, Hana Financial, Nifco, and Pets at Home—businesses characterized by sound financial structures, attractive valuation metrics, and runways of future growth.

Several holdings were trimmed or sold in one or more Sub-Funds, including Alphabet, Brenntag, FMC Corp, Kronos, SCOR, and Fresenius SE, where valuations approached our estimates of intrinsic value or where capital could be more effectively allocated to new opportunities.

Portfolio Positioning

Consistent with our longstanding investment approach, the Sub-Funds remained significantly weighted toward non-U.S. developed markets, notably Europe and Japan. Sector exposures continued to emphasize industrials, financials, and healthcare holdings. U.S. equity exposure remained modest and highly selective, reflecting elevated valuation levels in the U.S. equity market.

As of March 31, 2025, between 39% and 51% of total equity assets across the Sub-Funds were invested in companies with market capitalizations under \$25 billion. Cash reserves remained modest, ranging between 5.8% and 7.9% of total Sub-Fund assets.

Outlook

Just after the fiscal reporting period's end, global equity markets experienced notable declines in response to President Trump's announcement of sweeping new tariff measures, which, in turn, have reignited concerns about global trade frictions and economic growth. Measures of market volatility such as the VIX are also on the rise. In addition, massive levels of public and private debt, tariff related inflationary concerns, and elevated intermediate-term and long-term interest rates lurk on the periphery. Investors have clearly begun to factor all of this into their investment calculus. The market reaction is not surprising to us, especially in light of the backdrop of elevated equity valuations, particularly in the United States. While it is too early to fully assess the long-term implications, we may very well be experiencing the early days of an inflection point in global equity markets. As Chris Browne often cautioned, inflection points in markets often occur when we experience a macroeconomic shock at a time of high equity market valuations. Whether President Trump's monumental change in trade policy is the macro catalyst that triggers a corresponding sea change in capital markets is anyone's guess at this point, but the caution lights appear to be clearly flashing.

The good news is that the Tweedy, Browne Value Funds remain, in our view, extraordinarily well positioned in the parts of the global equity market that represent real value, particularly non-U.S. equities, which as previously noted herein, have perked up of late relative to their U.S. counterparts. We continue to uncover considerable opportunity outside the United States, particularly in smaller and medium-sized European, Asian, and Japanese equities. In all three of our Funds, we have added a plethora of new small and medium capitalization companies over the last several years. As always, we believe that a diversified portfolio of well-capitalized, competitively advantaged companies purchased at sensible valuations offers the best defense against uncertainty. If the past is prologue, that should serve us well over time.

Tweedy, Browne Value Funds

Notes to the Financial Statements

General

The Fund is an investment company organized under the laws of the Grand Duchy of Luxembourg as a Société d'Investissement à Capital Variable with the capacity to divide its assets into several separate Sub-Funds and issue shares of several classes (each, a "Class"), each relating to a separate Sub-Fund.

Tweedy, Browne Value Funds, a Luxembourg Société d'Investissement à Capital Variable qualified as a UCITS.

Tweedy, Browne International Value Fund (Euro) – invests primarily in equity securities of issuers domiciled throughout the world that are admitted to or dealt in on a Regulated Market or Other Regulated Market. The Sub-Fund is denominated in Euros.

Tweedy, Browne International Value Fund (CHF) – invests primarily in equity securities of issuers domiciled throughout the world that are admitted to or dealt in on a Regulated Market or Other Regulated Market. The Sub-Fund is denominated in Swiss francs.

Tweedy, Browne Global High Dividend Value Fund – invests primarily in equity securities of issuers domiciled throughout the world that are admitted to or dealt in on a Regulated Market or Other Regulated Market that the Investment Manager believes to have above-average dividend yields and valuations that are reasonable. The Sub-Fund also invests, on a more limited basis, in securities the Investment Manager believes to have attractive shareholder yields at the time of purchase, along with valuations that are reasonable. The Sub-Fund is denominated in Euros.

Each Sub-Fund is actively managed without reference to any benchmark.

The fiscal year of each Sub-Fund ends on September 30.

Significant accounting policies

The financial statements were prepared in accordance with the legal provisions and regulations in force in Luxembourg concerning the preparation and presentation of the financial statements and under the going - concern assumption.

The Net Asset Value per Share of each Class is determined as of each Valuation Date and is calculated on the Business Day following the Valuation Date based upon the market value of all of the portfolio securities of the corresponding Sub-Fund and any other assets of the Sub-Fund less all liabilities.

Each Sub-Fund has two separate classes: the Class of Investor Shares relating to the Sub-Fund (i.e., Class B for the International Sub-Fund (Euro), Class C for the International Sub-Fund (CHF), Class D for the High Dividend Sub-Fund) and the Class of Manager Shares relating to the Sub-Fund.

A summary of the valuation policies adopted by the Board of Directors is set forth below:

- a. The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- b. The value of Transferable Securities and Market Instruments and any other assets listed or dealt in on any stock exchanges or on a Regulated Market and/or any Other Regulated Market is based on the last available closing price on the relevant market which is normally the principal market for such assets;
- c. In the event that any assets are not listed or dealt in on any stock exchange or on any Regulated Market and/or any Other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange or on any Regulated Market and/or Other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraph (b) above is determined not to be representative of the fair market value of the relevant assets, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith;
- d. The liquidating value of futures, forward or options contracts not traded on a stock exchange or on Regulated Markets, or on Other Regulated Markets will mean their net liquidating value determined, pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts. The value of futures, forward or options contracts traded on a stock exchange or on Regulated Markets, or on Other Regulated Markets will be based upon the last available settlement or closing prices as applicable to these contracts on a stock exchange or on Regulated Markets, or on Other Regulated Markets on which the particular futures, forward or options contracts are traded on behalf of the Fund; provided that if a future, forward or options contract could not be liquidated on the day with respect to which assets are being determined, the basis for determining the liquidating value of such contract will be such value as the Board of Directors may deem fair and reasonable;
- e. Swaps will be valued at fair value as determined in good faith pursuant to procedures established by the Board of Directors;

Notes to the Financial Statements (continued)

Significant accounting policies (continued)

- f. Units or shares of open-ended UCIs will be valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price will be determined by the Board of Directors on a fair and equitable basis. Units or shares of a closed-ended UCI will be valued at their last available stock market value.
- g. All other Transferable Securities, Money Market Instruments and other financial liquid assets, including equity and debt securities, are valued at fair market value (see "Fair Market Valuation", below) as determined in good faith pursuant to procedures established by the Board of Directors. Such valuation may also apply to securities and other assets for which current market quotations are not readily available, and those securities which are not readily marketable due to significant legal and contractual restrictions and to any other assets of any Sub-Fund if an event has occurred subsequent to the time a value was established which is likely to materially affect such value.

The value of all assets and liabilities not expressed in the Base Currency of a Sub-Fund is converted into the Base Currency of such Sub-Fund at rates last quoted by any major bank or by Thomson Reuters. In the event that exchange rates are not available for a particular currency on a Valuation Date, the last quoted exchange rate is used.

Investment Management and Management Company Fees (until January 23, 2025)

The Fund has agreed to pay the Investment Manager, quarterly in arrears, an investment management fee at an annual rate of 1.25% of the average aggregate Net Asset Value of the Investor Shares of each Sub-Fund of the Fund computed as of the close of business on the applicable valuation date. The investment management fee payable to the Investment Manager is borne by the Investor Shares of each Sub-Fund and accrued fees are deducted in determining the Net Asset Value of Investor Shares.

Effective since May 1, 2020, the Investment Manager and the Fund entered into an Amended and Restated Voluntary Investment Management Fee Waiver Agreement (the "Agreement"). The Agreement will continue in effect through at least December 31, 2025, but may be continued from year to year thereafter by the Investment Manager.

Under the Agreement, the investment management fee payable by the Fund is as follows:

One percent (1.00%) per annum in respect of the average aggregate Net Asset Value of the Investor Shares of each of the International Euro Sub-Fund, and the Swiss Franc Sub-Fund, and ninety basis points (0.90%) per annum in respect of the average aggregate Net Asset Value of the Investor Shares of the High Dividend Sub-Fund.

Notes to the Financial Statements (continued)

Investment Management and Management Company Fees (until January 23, 2025) (continued)

The Annual Investment Management Fee Rate so calculated will be applied to the average aggregate Net Asset Value of each Sub-Fund's Investor Shares as of the relevant Valuation Date.

No investment management fee is charged on or borne by the Manager Shares of any Sub-Fund.

The Fund pays to the Management Company a management company services fee that will not exceed 0.10% of the average assets per Sub-Fund per annum subject to a minimum of EUR 80,000, such minimum to be charged at the level of the Fund.

The Directors of the Fund, other than Thomas H. Shrager and Robert Q. Wyckoff, Jr., each receive an annual fee of Euro 30,000 net of withholding tax if applicable, which is paid by the Fund. Such fees have been recorded as part of Directors' fees and other expenses in the Statement of Operations and Changes in Net Assets.

In addition, the Fund has entered into agreements to pay service fees to certain investment fund platforms through which Investor Shares are offered. The Fund also pays the Management Company annual fees for distribution, registration, and other ancillary services.

Investment Management and Management Company Fees (since January 24, 2025)

The Fund pays to the Management Company a management company services fee that will not exceed 0.125% of the average assets per Sub-Fund per annum subject to a minimum of EUR105,000, such minimum to be charged at the level of the Fund with three sub funds, including up to two share classes. For the launch of additional share classes, the minimum fee increases by EUR 7,500 p.a. (unhedged) and EUR 10,000 p.a. (hedged) per share class, starting with the third share class per sub-fund.

The Fund also pays the Management Company annual fees for distribution, registration, and other ancillary services.

Domiciliary and corporate agent services fees (since January 24, 2025)

The Fund pays a fixed fee of EUR € 15,000 p.a. for the services for Domiciliary and Corporate Agent Services in accordance with normal banking practices in Luxembourg. In addition, the Fund pays out of the assets of the relevant Sub-Fund all reasonable out-of-pocket expenses, disbursements and for the charges.

Depositary fees (since January 24, 2025)

The Fund pays to the Depositary by way of remuneration a fee, which varies from 0.005% of net assets to 0.9% of net assets, depending on the countries in which the Sub-Funds invest, payable monthly in arrears, plus transaction fees, subject to a minimum of EUR 15,000.00 p.a. The Fund also pays the Depositary a depositary oversight service fee of 0.01% of net assets annually, subject to minimum of EUR 6,600.00 p.a.

Registrar and transfer agent fees (since January 24, 2025)

The Luxembourg Registrar and Transfer Agent will receive for its services annual fund fee of EUR 5,000.00 p.a. In addition, it will be entitled to a remuneration in line with the market standard based on number and structure of the shareholder account, number of share classes and number of transactions. All fees together are subject to a minimum of 12,000.00. p.a.

Portfoliomanager fees (since January 24, 2025)

Subject to the fee waiver described further below, each Sub-Fund pays to the Investment Manager, quarterly in arrears, an investment management fee at an annual rate of 1.25% of the average aggregate Net Asset Value of the Investor Shares of such Sub-Fund, computed as of the close of business on the applicable Valuation Date (see "Net Asset Value").

Tweedy, Browne Value Funds

Notes to the Financial Statements (continued)

Subscription Tax ("taxe d'abonnement") (since January 24, 2025)

The Sub-Funds are however subject to the Luxembourg subscription tax (taxe d'abonnement). Each Sub-Fund is liable in Luxembourg to a subscription tax of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the Net Asset Value of such Sub-Fund at the end of the relevant quarter.
